APP 15: Races for kids at World Cup Days

I suggest that from now on, during the WC there are races for kids and adolescents just like it is done elsewhere, for instance, Xamaskitty, Polish Cup, Max Sandel Cupe, etc., in order to avoid situations like the one during the Polish Cup 2017 Warsaw leg, where the young athletes had to participate just one day. A similar situation could be seen during the Polish Cup 2018, where this competition was announced late and as a result a lot of young athletes did not take part because of the lack of information.
