

APP 18: DNS after qualification for PSL

- clear instruction for TD's to observe closely DNS after qualifications during PSL and to report

those cases for further investigation:

- communicate to national trainers, that without clear medical justification DNS could be in the future considered as intentional action against other racers and sport, fulfilling the definition of "bad sportsmanship's" with all its consequences

- due to safety of the racers introduce "start delay" for 1-3 days after the problems with health are communicated or follow authorised medical support guideline

- regarding PSL adapt regulations allowing to extend group of participants by next racers (once feasible) in case the qualified racer resign
