

APP 5: Discqualifications

ARTICLE 27 Disqualifications

27.4 Bad Sportmanship.

After the case of two strange DNS in Villablino PSL² add as a bad sportiest behaviour an unjustified DNS.

We should discuss about what is necessary to introduce in this article:

- TD's have the responsibility to observe closely DNS after qualifications during PSL and to report those cases for further investigation.
- TD can ask the racer to justify the reason of a DNS after PSL qualification. TD can decide if the explanation is enough or if it is a bad sportmanship case.
- regarding PSL adapt regulations allowing to extend group of participants by next racers (once feasible) in case the qualified racer resign.

(In my opinion, I would add 1st and 2nd point. 3rd point is open to debate)
