Suggestions for changes in regulations

Proposal (1)

As is rule	Proposal/Demand of WS	Reason	WS IA TC Decision
4.6. World Ranking Regulation 4.7.Special rules for World Ranking races	Delete! Not placed in Worldskate Inline Alpine official regulation!	Forced by General Secretary Roberto Marotta!	No voting necessary!
WORLD SKATE RAD TC	WORLD SKATE IA TC -> WORLD SKATE Downhill TC	Forced by General Secretary Roberto Marotta!	No voting necessary!
New World Skate Statutes and By-Laws -> new clusters	Sport “Downhill” Disciplines 1. Inline Downhill 2. Inline Slalom 3. Skateboarding Slalom 4. Skateboarding Downhill 5. Street Luge		OKAY!
5.1.1 Type of poles / Restrain system Only tilt-poles with a connection to the fixation of the poles and shall meet the security- requirements. • Restrain-system: • Tilt-poles: Only tilt-poles of a common construction are allowed	5.1.1 Type of poles / Restrain system Only tilt-poles with a connection to the fixation of the poles and shall meet the security- requirements. •Restrain-system: Only restrain-system with an approval made by an admitted testing institute is allowed. Only restrain-system with maximum height of 9 cm after tilt over is allowed! •Tilt-poles: Only tilt-poles of a common construction are allowed.	To dangerous, many injuries! allowed! -> 7 cm Not allowed! ->12 cm 	4 x YES

Proposal (2)

As is rule	Proposal	Reason	WS IA TC Decision
<p>5.3.1 Slalom Grade The track must have a grade of 6% up to 15%</p>	<p>5.3.1 Slalom Grade The track must have a grade of 6% up to 15% The track must have a gradient of 6 % up to 15 % on average.</p>	<p>So it will be possible that a part of the track could be flat</p>	<p>4 x YES</p>
<p>5.3.2 Giant Slalom Grade The track must have a gradient of 6 % up to 10 % on average. Exceptions can be made by "WORLD SKATE IA TC".</p>	<p>5.3.2 Giant Slalom Grade The track must have a gradient of 6 % up to 10 % on average. Exceptions can be made by "WORLD SKATE IA TC".</p>		<p>4 x YES</p>
